## REPUBLIC SPECIAL.

New York, April 18.—In spite of some heavy selling of American stocks in London for account of a big Liverpool operator the tone there was good. The advance on the day was maintained right up to the middle. The general market was steady, and companies were held in high esteem in the open market. The market tendency, though not clearly defined, and the fact that the flood has been considerably overestimated.

Money continues easy, and the outlook abroad is regarded as favorable. There is less talk of gold shipments.
